

Parent Portraits

Mill Rythe
JUNIOR SCHOOL

No one knows your child as well as you and whilst we will spend as much time learning about them as possible by watching them, talking to them, working with them and meeting with their teachers at their current schools, we would like to invite you, as parents and carers, to share as much information as possible with us about your child/children. You might like to include information about their interests, anxieties, eating and sleeping habits, friendships, involvement of other professionals, development milestones, whether they are a young carer, information about other members of your family, a funny event or recent holiday - anything that you would like to share with us. Thank you for taking the time to help us learn more about your child/children.

Child's name: _____
